

I am writing in opposition to the expansion of Low Power FM stations, especially with regard to them taking priority over current FM translators. I am specifically concerned that this would prohibit me (and people in my area) from receiving the FM signal from K-LOVE. K-LOVE offers family-friendly programming that my family and I enjoy almost 24 hours a day. K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across America. I would be very disappointed if this translator service that makes this station available were replaced by LPFM and I am submitting these comments to the FCC in opposition of the expansion of Low Power FM stations.
